NOTES:

1. John C. Evans created this personnel list with substantial help from **Rick Burkmier, John Hertz, John Huber, Mark McSorley, Jim Wyers, and John Zaichkin**. Their help was crucial in making this list of contributors as complete as humanly possible. If you have corrections or updates please <[email me](#)>
2. The San-Tan Remote Test Facility was The Phoenix laboratory test site for the ATF3 bird ingestion testing that occurred prior to engine certification in 1978 and in the early 1980's. In 1980 two new outdoor endurance fan test facilities were completed
3. Site A, Torrance California, NW corner of 190th Street and Van Ness Avenue.
4. Site B, 20,000 S. Van Ness Ave., later the entrance was moved to 20225 S. Western Ave, Torrance CA, (between Western and Van Ness Avenues).
